PROJECT

Student Management System (Full Stack Project)

Tech Stack: React.js, Java Spring Boot, MySQL, Postman, Git

Description:

Built a full-stack web application to manage student and faculty details with CRUD operations and authentication.

Key Features:

- Developed responsive UI using React.js.
- Built RESTful APIs using Spring Boot for students, faculty, and admin modules.
- Connected backend with MySQL for data storage.
- Implemented role-based access (Admin / Faculty / Student).
- Tested API endpoints using Postman.

Outcome:

Improved data management efficiency and reduced manual workload through an automated system.
